

DOPAMS — Drug Offenders Profile Analysis & Monitoring System

Monthly Narcotics Intelligence Report

Overview of narcotics intelligence activities for February 2026. During the reporting period, the Anti-Narcotics Task Force conducted operations across 12 districts, resulting in 23 arrests and the seizure of contraband valued at approximately INR 4.7 crore. Cross-referencing intelligence databases revealed repeat offenders where bail was granted to repeat offenders, necessitating enhanced surveillance. The lead-to-case conversion rate improved by 15% over the prior period. Three new inter-state drug trafficking networks were identified through CDR analysis and financial trail analysis.

Key Performance Indicators (KPIs)

KPI	Target	Actual	Achievement %	Trend
Active Subjects Under Monitoring	—	312	—	% ² +14
New Subjects Profiled	40	47	117.5%	% ²
Lead Closure Rate	80%	62%	77.5%	% ² +8pp
Avg. Case Resolution (days)	30	26	115.4%	% ²
Alert Response Time (hours)	4.0	3.2	125.0%	% ²
Time to Case Generation	—	89	—	% ² +12
Seizure Value (INR Crore)	3.0	4.7	156.7%	% ²
FIR Conversion Rate	70%	68%	97.1%	% ¹ / ₄ -2pp
Conviction Rate (e-Courts)	60%	52%	86.7%	% ¹ / ₄ -4pp
Inter-State Intel Shared	10	14	140.0%	% ²

3. District-wise Seizure Summary

District	Operations	Arrests	Drug Type	Qty (kg)	Value (INR Lakh)
Amritsar	8	5	Heroin	2.4	120.0
Ludhiana	6	3	Opium, Poppy Husk	45.0	67.5
Jalandhar	5	3	Heroin, Tablets	1.8	95.0
Ferozepur	7	4	Heroin	3.1	155.0
Fazilka	4	2	Heroin	1.2	60.0
Tarn Taran	6	2	Poppy Husk	38.0	19.0
Pathankot	3	1	Charas	5.5	8.2
Bathinda	2	1	Tablets (Tramadol)	8000 tabs	4.0
Moga	3	1	Opium	2.1	10.5
Sangrur	2	1	Heroin, Charas	0.8	40.0
Patiala	1	0	—	—	—
Kapurthala	0	0	—	—	—

4. E-Courts Integration — Data Ingestion Status

During the reporting period, the DOPAMS e-Courts connector ingested case data from 6 district court

portals. A total of 142 NDPS case records were synchronized, with 97% match confidence against existing subject profiles. 8 cases flagged AMBIGUOUS (confidence < 60%) were routed for manual review. 3 new bail orders for high-risk subjects triggered automatic alert generation.

The following e-Courts portal URLs are configured for periodic data ingestion. These URLs serve as the source for court case status, hearing schedules, bail orders, and conviction records.

5. Configured E-Court Ingestion Sources

Court / Portal	URL	Last Sync	Status	Records
eCourts Services (National)	https://services.ecourts.gov.in/	2026-03-11	ACTIVE	142
District Court Amritsar	https://districts.ecourts.gov.in/amritsar	2026-03-11	ACTIVE	38
District Court Ludhiana	https://districts.ecourts.gov.in/ludhiana	2026-03-11	ACTIVE	27
District Court Jalandhar	https://districts.ecourts.gov.in/jalandhar	2026-03-11	ACTIVE	22
District Court Ferozepur	https://districts.ecourts.gov.in/ferozepur	2026-03-11	ACTIVE	19
HC Punjab & Haryana	https://highcourts.hcpcj.in/	2026-03-11	ACTIVE	36
District Court Bathinda	https://districts.ecourts.gov.in/bathinda	—	PENDING SETUP	0
District Court Patiala	https://districts.ecourts.gov.in/patiala	—	PENDING SETUP	0

6. Ingestion

Ingestion Mode:	Scheduled (every 6 hours) + On-demand manual trigger
Data Types Ingested:	Case status, hearing schedules, bail orders, conviction records, FIR linkages
Match Strategy:	Name + FIR number + Section of Law (confidence-scored)
Ambiguity Threshold:	Confidence < 60% !' routed to manual review queue
Deduplication:	SHA-256 checksum on (case_number + court_code + hearing_date)
Dead Letter Queue:	Failed ingestion records retained for 30 days with retry capability
API Authentication:	Bearer token (per-court credentials stored in Secret Manager)

7. Court Case Monitoring — NDPS Cases

Case No.	Court	Subject	NDPS Section	Status	Next Hearing
NDPS-2026-041	Amritsar Sessions	Gurpreet Singh	21(c), 29	Trial	2026-04-15
NDPS-2026-039	Bathinda District	Harjinder Kaur	20, 25	Bail Granted	2026-04-22
NDPS-2025-118	Patiala District	Ranjit Kumar	21(b), 27A	Arguments	2026-03-28
NDPS-2026-044	Amritsar Sessions	Amrit Pal	22(c), 29	Charge Framed	2026-04-10
NDPS-2025-089	Faridkot District	Bikram Jit	21(c), 27A	Appeal Pending	2026-05-02
NDPS-2026-046	Tarn Taran District	Sukhdev Singh	15, 18	Investigation	2026-04-08
NDPS-2025-124	Patiala District	Balwinder Singh	21(c), 29	Convicted	—
NDPS-2026-038	Amritsar Sessions	Jaspreet Kaur	22, 25A	Bail Hearing	2026-03-25

8. Alerts Generated from E-Courts Ingestion

Alert ID	Trigger	Subject	Severity	Action Taken
ALT-EC-001	Bail granted to repeat offender	Harjinder Kaur	HIGH	Surveillance activated
ALT-EC-002	Bail granted to high risk flagged	Ranjit Kumar	CRITICAL	Movement tracking initiated
ALT-EC-003	Case dismissed — re-evaluation needed	Paramjit Gill	MEDIUM	Profile review scheduled
ALT-EC-004	Conviction PD hearing postponed 3+ times	Balwinder Singh	HIGH	PD Act proceedings initiated
ALT-EC-005	Same advocate for co-accused	Bikram Jit	LOW	Notes in case file
ALT-EC-006	Bail surety from known associate	Amrit Pal, Sukhdev	MEDIUM	Network link flagged
ALT-EC-007	New NDPS case — existing subject	Jaspreet Kaur	HIGH	Associate profiled
ALT-EC-008		Gurpreet Singh	HIGH	Case linked to profile

9. Recommendations

- 1. Extend e-Courts integration to cover Bathinda and Patiala district courts (PENDING SETUP).
- 2. Automate PD Act fitness evaluation when conviction data is ingested from e-Courts.
- 3. Enhance bail-

grant alert logic to cross-reference surety details with known associate database.

4. Establish data sharing MOU with NCB for inter-state case correlation.

5. Deploy NLP-based case order summarization for faster review of lengthy court orders.

6. Configure weekly scheduled reports for leadership with auto-publish workflow.

10. Annexure — Adding New E-Court Sources

To configure a new e-Court URL for data ingestion in DOPAMS:

Step 1: Navigate to Admin Hub !' Platform Connectors !' E-Courts tab

Step 2: Click 'Add Connector' and enter the court portal URL

Step 3: Select data types to ingest (Case Status, Bail Orders, Hearing Schedule, Convictions)

Step 4: Configure polling interval (recommended: 6 hours for active courts)

Step 5: Set authentication credentials (if required by the portal)

Step 6: Run 'Test Connection' to validate connectivity
Step 7: Enable the connector — data will appear in the Ingestion Jobs queue

Alternatively, use the API endpoint:

POST /api/v1/ingestion/connectors

Body:

```
{ "connectorType":  
  "ECOURTS",  
  "name": "District  
  Court XYZ",  
  "config":  
    { "baseUrl": "https://di  
      stricts.ecourts.gov.in/  
      xyz",
```

```
  "dataTypes":  
    ["case_status",  
      "bail_orders",  
      "hearings"],  
    "polling  
IntervalSeconds":  
    21600 } }
```
